Create a warm, relaxing ambiance using Philips LED lamps with warm glow effect. Cutting-edge technology reduces the lamp’s color temperature to a warm glow when dimmed, taking LED lamp dimming to new levels. The A19 and G25 feature a new omni-directional prism that creates the look and feel of a filament, with a uniform lighting effect for use in most lighting fixtures.

**LED benefits with the ambiance of incandescent**

- Traditional lamp shape
- A19, R20, BR30 and BR40 are ENERGY STAR® certified
- Color temperature ranges from 2700K to 2200K as the lamps are dimmed
- 25,000 hour ENERGY STAR® qualified life
- Smooth dimming to <10%
- A19 and G25 features all-around light*
- For warranty information visit [www.philips.com/warranties](http://www.philips.com/warranties)

**Easy to experience**

- Incandescent-like dimming experience**
- Long Life, can reduce maintenance costs
- Enjoy the energy-savings of LEDs without sacrificing light quality
- Dims to a smooth, even glow***
- Maintains CRI throughout dimming range

See footnotes on page three.

</table>

1. This wattage should be used to determine the maximum number of LED lamps for a given transformer, not the Lamp Watts.
2. Rated average life based on engineering testing and probability analysis.
3. All Philips LED Lamp equivalencies for light output are based upon the ENERGY STAR guidelines as detailed in the ENERGY STAR Lamps V1.1 September 2014 specification.
4. This lamp is ENERGY STAR® Certified.
5. ENERGY STAR® Test in progress.

1. Light dims to a warm glow, similar to incandescent.

Footnotes from page 2:

* This lamp provides a measured light distribution of 300°. In use, this lamp gives the appearance of light all-around (360°).
** Dims from 2700K to 2200K along the black body line, while maintaining CRI.
*** Dimmable when using leading and trailing edge dimmers. (See http://www.philips.com/ledtechguide for compatible dimmers.)
